

## YARDI Insight™

Yardi Insight™ is an enterprise-scale Business Intelligence solution built on BusinessObjects™ and Xcelsius™ and integrated with Yardi Voyager™ for superior depth in portfolio visibility and reporting. Yardi Insight exposes trends and critical business issues based on accurate information so you can make informed, timely decisions.

## View Performance

Yardi Insight seamlessly accesses real-time property data from the single Voyager database, and provides configurable, interactive dashboards that enable you to create your own views and reports of key performance statistics—with full drilldown.

Yardi Insight provides configurable dashboards with real-time property data that is easy to analyze—and act on.

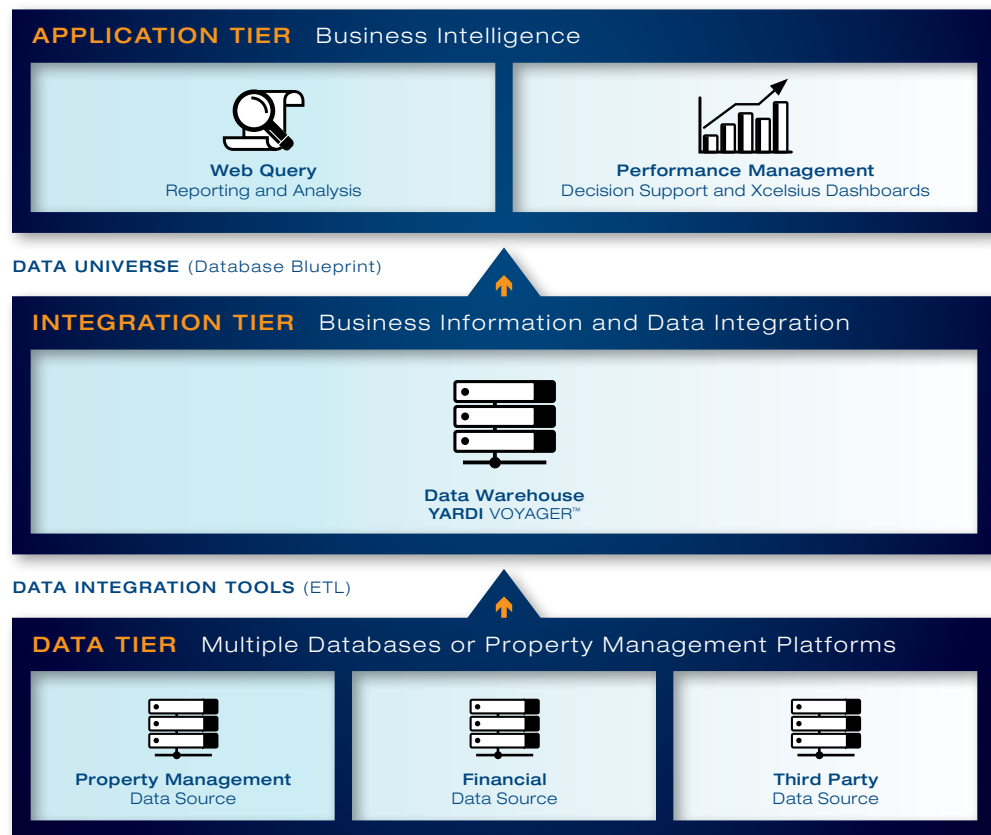

## Key Features

- Single database with real-time data – no data warehousing, no delay
- Interactive, configurable dashboards with drilldown
- Actionable information with sensitivity analysis and “what if” capabilities
- Executive quality reports and presentation powered by Flash®
- Ten standard Yardi dashboards, thirty standard Yardi reports
- Web Intelligence,™ Crystal,™ custom, and ad hoc reports
- Property, user, and report-level permission-based security
- Yardi supported “data universe” – a database blueprint to create new reports quickly

## Aggregate Data

Yardi Insight elevates portfolio reporting to a new level with real-time, “what if” capabilities that leverage asset data directly from Voyager and present it in easy-to-read dashboards. Thresholds and tolerances can be adjusted *on the fly*, making it simple to measure performance at any given time. Yardi Insight lets you instantly know your cash flow, quickly determine your net operating income by region, identify your “at-risk” tenants and top performing properties, and more.

With a single Yardi Voyager database, no data warehousing is needed. If your data resides in multiple databases or property management platforms, Yardi Insight can function as a data warehouse. The Yardi ETL tool can be used to extract and aggregate the data into Yardi Insight for consolidation across multiple platforms.

## Integrated Solution

Yardi Insight is part of the Yardi Commercial Suite™ that includes:

- Yardi Portal™
- Yardi Payment Processing™
- Yardi Procure to Pay™
- Yardi CRM™
- Yardi PortfolioVMF™
- Yardi Document Manager™ for SharePoint®
