

Genesis Hosted-Client System Requirements

Recommended hardware and software specifications* for Yardi-hosted Genesis clients. Yardi Systems, Inc. July 2010.

Clients connect to the hosted application (the current version of Yardi Genesis) and to their data on Yardi ASP servers. For this configuration, client-workstation hardware and software requirements are minimal. A good quality Internet connection is the basic requirement. A printer is required if reports or checks will be printed.

CLIENT SPECIFICATIONS

Operating system	Microsoft Windows XP, Microsoft Windows Vista, or Microsoft Windows 7 - with latest MS service pack and security updates
Processor	Intel Core, Intel Pentium, AMD, or compatible, 1 GHz or faster (recommended); 500 MHz (minimum)
RAM	3 GB for Windows 7 or Windows Vista; 1 GB acceptable for Windows XP
Free hard disk space	10 GB
Software applications	Citrix XenApp client (<i>provided by Yardi</i>) Adobe PDF Reader (<i>provided by Yardi</i>)
Printer	HP LaserJet (6 MB RAM), or equivalent; not recommended: multi-function printers
Internet connection	Broadband - DSL, cable, ISDN, T1, or LAN-based

Because clients connect to Yardi ASP services through the Internet, it is important to maintain good security practices such as corporate firewalls and utilities for protection against computer viruses and spyware. Configuration of local client hardware and software security is the responsibility of the user..

(*) System requirements presented herein are accurate and reliable to the best of Yardi's knowledge and belief but are not guaranteed to be so. These requirements are subject to change without notice. Nothing herein is to be construed as recommending any practice or any product in violation of any patent or in violation of any law or regulation. It is the user's responsibility to determine the suitability of any equipment and/or procedure for a specific purpose and to use such equipment and/or procedure as may be necessary and pertinent to the user's organization and business practices.
