Bayshore Integrated Care Solutions (ICS) maximizes efficiency with Yardi EHR

Streamlining workflows

CENTRALIZING DATA
AND REPORTS

Saving time

ELIMINATING PAPER
PROCESSES

Empowering teams

SEAMLESS NAVIGATION
FOR STAFF

THE CHALLENGE

Bayshore ICS previously relied on paper for charting, assessments, medication management and more. These paper processes were time consuming and susceptible to errors.

THE SOLUTION

Bayshore ICS now uses Yardi EHR, a fully integrated electronic health record solution that simplifies record keeping. Teams are benefitting from centralized workflows, time savings and more.

Real senior living operator, real results

Thanks to Yardi EHR, Bayshore ICS is driving success in new ways

CENTRALIZING DATA AND REPORTS

With Yardi EHR centralizing resident records, standardized care workflows and clinical reporting in one place, the TCU teams no longer need to dig for information. The secure, intuitive platform makes it easy to retrieve important documentation — without searching across various locations.

ELIMINATING PAPER PROCESSES

Saying goodbye to paper processes helps Bayshore ICS save time. With Yardi EHR uniting on a single digital platform — which houses everything staff needs — teams complete tasks quicker and more efficiently. This includes performing assessments, managing shift-to-shift handovers and pulling information from charts.

“Yardi really helps staff feel part of the care team.”

JOSHUA KIRUBANANDAN

Project Manager, EMR
Bayshore ICS
