

# Yardi Orion Business Intelligence

Analyze the operational and financial health  
of your entire portfolio via simple-to-use dashboards.

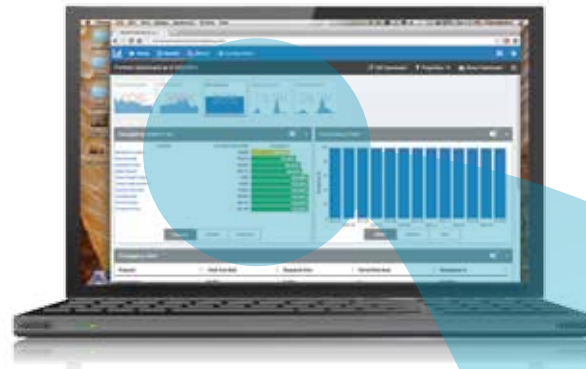

# Yardi Orion Business Intelligence

Gain new insight into the health of your business with Yardi Orion Business Intelligence, a smart, intuitive, mobile solution that delivers the information you need to improve portfolio performance. Leverage Orion and the data in your Yardi Voyager and Yardi Commercial Suite products to get results in dramatically less time and at lower cost than other business intelligence systems.

## Powerful Analytics

Orion combines your financial and operational data to give you a holistic view into company financials, spending and tenant health. You can easily create simple-to-use dashboards to monitor trends in tenant, property, portfolio and business-wide performance. You get total visibility with rich, detailed and configurable reporting and analytics. And, sharing insight with your team and stakeholders is easy—Orion facilitates online collaboration with searchable conversations, Twitter-style tagging and automated notifications.

## Mobile Platform

As a browser-agnostic, mobile-friendly platform, Orion delivers robust reporting and dashboards to your tablet and desktop computer with equal ease.

Dashboards with operational data, all at your fingertips.

## Key Features

- Configurable, interactive dashboards with drag-and-drop tiles and widgets
- Discussions that enable users to comment about performance metrics within dashboards
- User-defined KPI targets and benchmark thresholds
- Custom SSRS reporting with Voyager analytics and ad-hoc Microsoft® Excel analysis
- Performance metrics with instant slicing, dicing and pivoting data
- Mobile accessibility across multiple devices and browsers

## Custom KPIs

Use Orion to build reporting content on the metrics you use to run your business. Easily create your own unique set of key performance indicators. Line charts, bar charts, pie charts, stacked bar charts and data grids with rankings tell the story of your portfolio's performance.

Discussions feature allows users to add comments, tag objects and follow discussion threads and trends directly in the program.

## Key Benefits

- Leverages your operational and financial data in Yardi Voyager for business-wide insight
- Helps you easily monitor operations using internal key performance indicators
- Delivers greater transparency into performance at portfolio, property and tenant levels
- Provides 24/7 access to key decision-making tools from any mobile device
