

Yardi® Kube

YARDI KUBE SUITE

Manage spaces, accounting, IT and sales on one platform

Streamline member management, lead generation, IT needs, accounting and reporting with an end-to-end solution built on Yardi Voyager. Three integrated portals cover every part of your business, an AI sales agent engages prospects around the clock and a mobile-first member portal enables one-tap bookings.

INCREASE EFFICIENCY

Grow and scale effectively with a single, connected platform to eliminate manual billing and paperwork, save time and reduce costs.

OPTIMIZE OPERATIONS

Facilitate self-service for members with automated bookings, billing, door access and an online marketplace. Automate lead generation, proposals and deal execution.

STREAMLINE ACCOUNTING

Combine accounts payable, general ledger, merchant services and reconciliation with powerful built-in accounting services.

FEATURES

YARDI KUBE SUITE

YARDI KUBE SALES AGENT

The Sales Agent answers questions, books tours and guides prospects 24/7 via chat, email, text or call, with instant handoff to your team.

MOBILE FIRST MEMBER PORTAL

A homepage that greets members by name. One-tap rebooking, live community updates and real-time support tracking, all wrapped in your branding

IT MANAGEMENT

Secure wired and WiFi that follows members to any of your locations, activates automatically with their agreement and lets you partition bandwidth.

EXTEND THE SOLUTION

Run around the clock without adding staff: 24/7 access control, reliable multi-location voice and hardware as a service with no capital expense.

BILLING AND CONTRACTS

Automate invoicing, collect payments and close contracts with built-in e-signatures. One platform from signed agreement to settled invoice.

PLANS FOR EVERY OPERATOR

Flexible plans built for unlimited members.

START

Launch your first location with essential tools for sales, billing, bookings, access and reporting.

GROW

Expand to multiple sites with advanced operations, analytics, automation and ecommerce to scale revenue.

PRO

Gain enterprise controls, portfolio reporting, integrations and security to manage complex flex operations.
