Yardi Voyager®

REPLICATE

Replicate Yardi data in your data warehouse

Yardi has partnered with Qlik to provide real-time replication of Yardi Voyager data to any existing warehouse environment including Snowflake, Amazon AWS and Microsoft Azure.

MOVE DATA

Efficiently move data from Voyager to other cloud environments and control the scope and destination.

ENHANCE REPORTS

Leverage third-party tools to analyze and report on Yardi data combined with data in your warehouse and gain unprecedented insight.

BOOST PERFORMANCE

Avoid cumbersome data exports and lags that are inherent in other solutions by leveraging real time replication of Yardi data to the cloud environment.

FEATURES

REPLICATE

POWERED BY QLIK

Benefit from the reliability and strength of the leading industry tool to replicate Voyager data outside your Yardi database.

REAL-TIME UPDATES

Qlik combines with Microsoft Change Data Capture to stream real-time data from Voyager to any destination endpoint.

COMBINED DATA

For more powerful and deeper insights, seamlessly integrate Yardi data — including financial, operational and customer data — in your existing data warehouse for reporting and analysis.

Our industry-tested and easy-to-use solution has your entire business covered on a single platform with a fresh new look.
